What a surprise lies behind these gates! We expected a simple, cozy and typically sturdy brick 3x1 we see from the street, but this is SO MUCH MORE! It's hard to know where to start? The list of added value items is EPIC! Start with 888sqm block with a total of nearly 400sqm under roof! There's covered parking for at least 8 cars, (or a whole dragon boat club) or maybe invite 188 of your closest friends around for wood-fired pizza? At its heart this home is a simple, but stylishly renovated 3 x 1 home in excellent condition, but the add ons are amazing starting with over 180 sqm of covered parking and patios, add a double garage workshop, add an external studio/granny flat, add solar power system, high-security screens on all entry points, a sexy renovated bathroom & kitchen, plus an alarm & CCTV system, walk in robe to master, awesome organic veggie planters, a wood fired pizza oven, gated parking on both sides plus front parking, and... well you get the idea. It's a MUST SEE and absolutely amazing value for money with all these inclusions. The owners are leaving town, so this is priced to sell quickly and can be available to occupy to approved purchasers immediately upon finance approval.
