Contract crashed and its back on the market. This lovely home is on a sloping block which ensures that the house and other amenities remain dry, but in the wet you have a lagoon on your back fence. Besides the residence there is a huge shed with large annexe easily large enough for the biggest boat or horse float or caravan. with secure fencing complete with an electric wire around the perimeter. The property is private and secluded from the street and the verandah on the back side of the house overlooks the back yard and the lagoon beyond. The road is sealed all the way to your gate.
