Auction

We present this modern single level home for your consideration. Designed as a spacious two bedroom villa style home it delivers far more than this. Spacious living area including a lounge and dining family area work cleverly around the kitchen. Modern bathroom plus the garage has been converted into another bedroom/study area. Large grounds that are great for the dogs, however have potential for a granny flat or home extension (STCA). Located on the western side of Kings Road with schools and shopping in close proximity. Land area 736m² with 12.19m frontage to Kings Road. Worth a look at.
