This lovely home with two bedrooms and a sleepout offers a great opportunity to enter the property market without breaking the bank. The front porch has been semi enclosed to provide a private area for your morning coffee or the afternoon beverage. The lounge has lovely wooden floors and has a tile fire to keep you warm in the winter. In addition to the lounge room, bedrooms, and sleepout there is also the kitchen dining room and a bathroom containing shower and toilet. There is a mix of exposed wood floorboards and vinyl floorcovering throughout the home. At the back of the home is a separate laundry which doubles as a storeroom or small workshop and has a second outdoor toilet alongside. The back yard is an open space with some young fruit trees and a structure that could be converted to a chook yard or shade house for your vegie garden. With vacant property on either side, this property offers an opportunity for quiet living at an affordable price.
