THE DEAL: Expressions of Interest

THE DEALIn the heart of Landsdale, just a brief walk from the lush expanse of Broadview Park, this meticulously presented residence epitomizes the essence of modern, family living. As you step inside, high ceilings extend a grand welcome, creating a canvas of spaciousness and light that defines the open-plan kitchen, family and dining areas, while engineered Blackbutt wooden flooring underfoot adds an enduring touch of warmth. The heart of this home is undeniably the contemporary kitchen, serving as a culinary hub and equipped with a Bosch self-cleaning oven, Smeg induction cooktop, Bosch dishwasher and Caesarstone finishes. A testament to contemporary design and functional living. Natural light floods in through sliding doors in the lounge and family rooms, leading out to a vast undercover patio - perfect for alfresco dining and entertaining your nearest and dearest. The bedrooms are thoughtfully appointed, with the primary suite featuring a generous walk-in robe, a modern ensuite with a bidet and an adjoining retreat that presents versatile possibilities as a study or even the potential for a fifth bedroom. Additional highlights include the 5kw solar system with 23 panels, a newly renovated main bathroom, fresh paint throughout the interior and exterior of the residence, updated switches, power points, door handles and a new laundry. Security is paramount, with cameras and secure fencing enveloping the home, offering peace of mind and a safe haven for kids to play. **SEALS THE DEAL** Each detail of this residence contributes to a narrative of comfort and efficiency, making this dwelling not just a house, but a home tailored for a lifetime of memories.
