Looking for a reasonable block with an old house that whilst currently unliveable is potentially salvageable for those who see potential and like renovating. Not suitable for finance. Features a back veranda with outside toilet. Inside the kitchen needs extensive repair however has a lot of character. Very large lounge room with fireplace (requires attention). Three bedrooms, two reasonable but one requires a lot of work. Floors seem level with floorboards. Large hallway. Power and water available but currently not connected. Will need to view property to consider extent of work. Lovely tidy block in a quiet part of town that has beautiful sunrises in the morning. For inspections or information contact Trish on 0419977858
