This beloved little home has a huge heart and a truly beautiful garden. It really is a private, peaceful oasis in the heart of town. Mansfield's booming High Street precinct is within walking distance, but once you come home here you will feel like you are a million miles away from the hustle and bustle of tourist traffic. The home has been thoughtfully updated and immaculately maintained over the years, with a modern bathroom and a new kitchen the most recent improvements. As well as the master bedroom with a lovely leafy vista, there's a big second bedroom with a fireplace which you would use as another living area plus a study or small 3rd bedroom. The covered verandah and rear deck is the perfect spot to enjoy your morning tea or coffee and admire the incredible garden. There's a second garage tucked away there that could make a great art studio or even a guest suite. The gardens and lawn are well established and deceptively low maintenance, but we also have some great contractors who can maintain them for you if you're not here full time.
