\$365,000

This three bedroom weatherboard home has been substantially modernised and offers an as-new bathroom and laundry and attractively modernised electric kitchen. Internally it has a cosy and comfortable welcoming feel with three bedrooms, lounge which interconnects with the eat-in kitchen, a front sunroom and an enclosed rear utility room. Creature comfort is well provided by way of a four-zone ducted air-conditioning unit. Additionally the home itself has been substantially re-stumped under floor with adjustable steel posts and a renewed water line from the town supply. The yard is securely fenced for animals and small children and offers a carport from the street as well as a strong steel hi-top caravan port and a secure single garage which are accessed from a side lane. An extra side shed and garden shade house are complemented by a 24,424 litre plastic rain-water storage tank with pump motor. This home will also appeal to older folk as it is on level ground at the front with minimal steps at the rear. Well worth your viewing here.
