Offers by Expressions of Interest

Where can you find the size of acreage fronting to the river with access for your canoes and boats or just go for a swim, fish or visit your own pet platypus or BBQ on the waterfront. What a glorious lifestyle of 4 large bedrooms, built-in robes and air-conditioned throughout. The ensuite and bathroom has been fitted out beautifully to make it a pleasure to live in, as is the large laundry that is located in a position perfectly to look out over the beautiful lawns and pool and to keep noise away from the living and television areas. The 2 living areas are large in size having a formal lounge and dining room plus casual family room dining and living area leading onto the outside entertainment areas. The Kitchen has been designed with style and completely fitted out to the glory of anyone who enjoys preparing food or entertaining. The inground pool is a delight to entertain around as it is a short distance from the balcony looking towards the river. There is also a granny flat fully fitted out located near the pool. The shed is spacious enough to accommodate 7 cars with one bay being of high clearance for caravans, boats or other larger items. But as the saying goes there's more! A very large solar system, generator installed and 3 rainwater tanks all on beautifully groomed 1.6 acres (approx), not on your title but there is another approx 1.25 acres of riverfront verge. Rental appraisal by a property manager at \$1000-\$1200 per week. You will just love it, contact Greg Chappell today on 0408 775 810.
