When a classic home gets a contemporary overhaul, the result can be beautiful, as is the case with this surprising package. Crisp and bright, the interiors set a great tone from the start, with highlights including a welcoming living area, three bedrooms, and a perfect kitchen and bathroom. A rear entertainer's deck overlooks the deep yard and takes in a far-reaching sweep of the surrounding district. - Classic three-bedroom given a modern overhaul from front-to-back - Combined living/dining room catching perfect northerly sunshine - Glossy kitchen with modern appliances and marble-effect benchtops - Bright bedrooms with BIRs; ducted AC and plantation shutters throughout - Subway tiled bathroom with bath; ground level laundry and storage - Stunning alfresco deck with a serene outlook and space to entertain - Deep backyard is a leafy and private oasis waiting for future projects - 950m to Charlestown Square, the CBD and an ever-expanding dining scene
