This is a true tropical hidden paradise situated on a 1/2 acre block of land only a minute from the township of Babinda. Lush tropical gardens with so many varieties of gingers to make your daily bunch of flowers. There are also a few citrus trees and pineapples located in the various pockets of the gardens. There is a creek that meanders past the property (but is not on this block) so you can hear the water passing by. The house is described as: UPSTAIRS* 2 bedrooms * Bathroom & toilet* Laundry * Open plan kitchen, dining and lounge room * Front patio to enjoy the tropical breezes and gardens DOWNSTAIRS* Another room* Laundry room* Carport and workshop* Lean to for extra storage The home is needing an update but is definitely livable and will become something special with some work. It is all about the location and block that makes this so special. Call for your appointment today.
