\$325,000

If you are looking for a little more land than the mundane new estates offer, and also more privacy and freedom to do what you want, than look no further. This near flat and cleared 2.5 acres of land is just waiting for its new owners to add their dream home. There are no developer covenants to restrict your design and this block is suitable for shed homes, removal homes etc. Already in place is a 9m X 6m shed with 2 internal stables & feed/tack room, mains power and water tank connected, an attached 9m X 3 m awning, driveway and gates and the block is fully fenced and has some internal fencing. Located only minutes from the Warrego highway, 25 minutes to Ipswich and under an hour to Brisbane. Land of this size with these added extras do not come along often and the price is hard to argue with. Call Paul or Adrienne today for more information or to arrange your own inspection.
