Welcome to your private Rainforest Retreat, where dreams of a slower pace of life become a reality. Positioned in the captivating Northern Rivers, where elusive platypuses roam freely, and just beyond the Gold Coast Hinterland, discover this expansive rainforest paradise that offers a true escape. Ideal for motoring enthusiasts with arguably some of Australia's best driving roads in the country. Conveniently accessible via an easy all-bitumen tree lined road, this private haven is a mere 15-minute drive from the amenities of Murwillumbah including a golf course. It's also just 30 minutes to the breathtaking Natural Bridge at Springbrook National Park and a swift 35 minutes to the Gold Coast Airport. For the aviators among us, this vast sanctuary offers ample space to touch down with a helicopter, making it just a 5-8 minute flight from the Gold Coast, 15 minutes from Byron Bay, and only 27 minutes from Brisbane. Nestled on a quiet, sealed cul-de-sac, the property offers well maintained tracks that lead to springs and lush intimate rainforest enclaves. The fertile landscape provides an abundance of nature's organic produce at your doorstep, including honey and tropical fruit. Framed by the world-renowned Lamington National Park and the rolling landscapes of Binna Burra, this vast estate provides the perfect antidote to urban life. Revel in the peace and magnificence of the hinterland, complemented by the modern luxuries this retreat provides. The heart of this property is a newly renovated 4-bedroom home, which features a rejuvenating magnesium pool overlooking endless vistas. From the sun lounge, be captivated by the beauty of the sunset through expansive floor-to-ceiling windows. On cooler nights, draw close to the inviting warmth of the fireplace with your favourite drink in hand. As summer approaches, let the doors swing open to enjoy dining al fresco on the terrace, bathed in the soft glow of twilight. Rich in potential, this land presents opportunities for cabin developments and eco-tourism initiatives (STCA), thanks to its rural zoning and agricultural past. The original homestead was perched on a distinct ridge, which holds promise for a secondary dwelling or an inspiring artist's studio (STCA). Blessed with a network of spring-fed dams and springs, water is ever-abundant. From the elevated vantage points and ridgelines, take in the sweeping views of majestic mountains including Mount Warning and tranquil valleys below. At this Rainforest Retreat, you're offered the ultimate sanctuary: a harmonious blend of seclusion, serenity, and unparalleled scenic beauty.
