This property will be a great getaway , you can run some cattle, camp or build , motor bike ride or just watch the wild life roam, It has an old set of yards, tick free zone, fenced, black forest country with some rock & poly tank to a water trough. All the milling timber went many years ago, but their is plenty of timber for post & rails. The block has 4 entries, 2 dams & Jones Creek running through , with a water reserve at the rear end of the property, which can be used by the owner, & power is available from Ryans road. Give me a call & make a booking to have a look.
