Ithereum - Where Luxury Meets Sophistication

Crafted by the renowned architects Kavellaris Urban Design, stands as a testament to bespoke and boutique luxury. Developed by IDB Developments and graced with landscape design by John Patrick, this collection of four residences epitomizes refined living.

Step into these homes and discover interiors meticulously curated for sophistication, complemented by rooftop terraces that offer a sanctuary amidst the urban landscape. The inclusion of top-tier Miele appliances ensures both functionality and elegance.

A hallmark of Ithereum's design is its reeded glass façade, not just aesthetically pleasing but also strategically crafted to invite ample sunlight into the living spaces upstairs. The seamless flow of open-plan living areas to the downstairs residences effortlessly extends to the exquisitely designed courtyards, where landscaping seamlessly integrates with the surroundings, creating a serene oasis.

Ithereum enjoys a coveted location with immediate access to public transportation, exclusive boutiques, fine dining establishments, and charming cafes that define the allure of Kew.

Exclusive Collection – 4 apartments

- Private foyer entry
- Central & Secure lift access
- Natural Stone finishes in Kitchen & Bathrooms
- Rooftop terraces to residences 3 & 4
- Quiet tree lined street walking distance to Kew Junction
