Unrivaled Penthouse Luxury at Pearl by Soliana

Design that inspires. Spaces that captivate. Luxury has a new address at Pearl. Conceived through an esteemed collaboration between industry elites – the property experts at Soliana with architectural craftsmanship by CHT Architects and transformative interior spaces by Sora Interiors – experience the unrivalled sophistication that only clarity of design can bring. Uncompromising in its vision and guided by immense attention to detail, intuition and innovation, Pearl reimagines luxury for modern living that is quite simply second to none.

There is an undeniable sense of grandeur to the facade's prominent exterior form, which is elegantly softened by lush cascading greenery. Designed to be set back from the streetscape, the linear facade creates dimension and movement whilst settling seamlessly within its verdant surroundings. Structured with a contemporary edge, classic concrete and masonry materials are crafted to reference the natural beauty of Brighton's enviable location. Expansive glazing harvests an abundance of natural light, illuminating the finely detailed and exceptionally curated interiors that work in cohesion with the architecture.

The meticulously tailored interiors are the pinnacle of form and function. A place to gather, unwind and entertain, the open-plan living area stands as a contemporary masterpiece where full-height windows frame lush emerald vistas. Distinguished by generous proportions, the living space spills onto an expansive balcony, cultivating an innate connection to nature and fostering an atmosphere of serenity. Engineered timber flooring complements the organic textures of the travertine natural stone finishes whilst elegantly juxtaposing with the brass and bronze fixtures, evoking an ambience of comfortable luxury.

Bespoke pendants curated by lighting designer Ross Gardam perfectly encapsulate this sophistication, casting a gentle glow on the textured cabinetry panels. Well-articulated curves echo throughout, from the sculpted stone island bench to the fluted joinery, presenting a true artisan's touch. Adjoining the living room, the stylish kitchen is afforded with a striking island bench, butler's pantry and built-in premium appliances, providing an outstanding culinary experience suited to an entertainer's lifestyle. A curved stone gas fireplace stands as a centrepiece, complemented by a continuous natural stone plinth and fluted timber wall panelling completing the refined aesthetic.

The elegantly appointed and sun-filled master bedroom is the epitome of heightened sophistication. Awaken to views of the bay as plush woollen carpets caress each step – a luxurious indulgence every day. Within the walk-in robe, masterfully crafted timber display shelves have been designed to effortlessly house all your garments and accessories. Full-height feature mirrors reflect the exquisite, heritage-inspired detailing, whilst brass joinery handles cultivate opulence. Adorned with charming finger-pull details, the bespoke drawers embody practicality and style. Floor-to-ceiling glazing connects to the balcony and invites nature into your domain, making this private retreat a true work of art.

One of Melbourne's most exclusive and affluent suburbs, Brighton is a dream-like paradise where heritage character intertwines with iconic bayside sophistication. Winding, leafy streetscapes are speckled with homes of undeniable grandeur, creating an atmosphere of timeless luxury. There is much to unearth in this cosmopolitan precinct, from boutique retail and world-class dining to breathtaking beaches and manicured parklands.
