Simple, Charming and Old School Cool!

Yep, that sums this one up, a no-nonsense old-style apartment that has stood the test of time, good enough to enjoy as is or alternately go to town, and speaking of town the city views are worth the asking price.

Perched high up on the top floor and with a full-on north orientation this apartment is the type of property the rule book says that you should buy with its style, big picture windows, abundant charm, position, potential and lifestyle - carpark included.
