Full-Floor Oceanfront Masterpieces

This exquisite, extremely limited-edition of only nine Masterpiece Series residences set the benchmark for pure coastal opulence.

On an incredibly scarce piece of beachfront real estate in one of Australia's most adored and tightly-held locations, Florence by Mosaic has been delicately designed and generously curated to elevate every sense, as a true Masterpiece should.

Bespoke detailing and inspired craftsmanship using the finest materials available elegantly dress expansive living spaces that look out to endless azure views.

The facade is composed of organic yet highly robust materials, complete with large terraces, soaring windows and integrated subtropical landscaping.

Ground-floor recreation amenity further enriches a five-star resort-style living experience.

With generously oversized proportions embracing abundant natural light and fresh ocean breezes, interiors balance comfort and style to a fine art.

Lines, texture, colour, and form come together harmoniously, creating a home that is as visually captivating as it is functional, while floor to ceiling windows and doors frame some of the most coveted coastal outlooks in Australia.

Of course, our commitment to you will also go well beyond completion. Mosaic retains our developments' management and caretaking post-completion, so you can rest assured you and your Masterpiece will be well looked after.

To say the anticipation for this release has been overwhelming is an understatement. Given the location, quality, and extremely limited nature of these residences, we are experiencing strong interest, and buyers are now making their move to avoid missing out.

If you would like to learn more, I encourage you to book a time to visit our beautiful showroom at 18 Albert Avenue Broadbeach. Alternatively, we can arrange an online presentation.
