Set in the majestic Victorian High Plains, and located in pole position with all of Dinner Plains amenities on the doorstep, this 4 bedroom chalet provides the perfect alpine getaway for you and your extended family or friends. Offering abundant space to host the neighbours and a large kitchen to cater for all your guests, this warm, inviting home will welcome you into your dream Alpine escape the moment you arrive. Sitting on a huge 473m² lot, HK is a Dinner Plain original, built in the 1980s to withstand the elements, with large rooms and packed to the beamed ceilings with classic High Plains Alpine Charm. The 4 spacious bedrooms offer the flexibility to accommodate groups or multiple families, with the option to lock off the master suite, inc ensuite and kitchenette, for private use. Currently set up to comfortably sleep 10 with the huge open plan living/kitchen/dining offering more than enough room for all, and a separate rumpus area upstairs for the kids to play while you relax in front of the expansive feature stone hearth by a roaring open fire. Spread across the majority of the entry level, the large open plan living area presents in original, well-maintained condition, with access to a large deck perfect to enjoy the fresh alpine air, with plenty of space for alfresco living. The level also offers a large family bathroom inc. corner spa bath, WC and laundry, and a large shedding room with drying cupboard. Off the hallway the master suite is set apart, down a few stairs, with its own bathroom and kitchenette. The upper level with its cathedral ceilings is light filled, with 2 balconies overlooking the picturesque village, 3 large bedrooms, the third bathroom and a large landing/rumpus room, set up with a pool table to keep the kids and teens entertained. Held by the same family for over 30 years, properties of this size and calibre are few and far between. For further information or to arrange a private viewing contact Rob on 0430 749 701.
