Type: House

Jamie Giokaris

Family Brick Veneer

Located in a great neighbourhood, this well presented 4 bedder sits on a corner block fronting a quiet cul-de sac and offers a fantastic opportunity for a young family.

The conventional floor plan features 4 good sized bedrooms; 3 with built-ins and the main bedroom having a walk in robe and ensuite; separate lounge room; and open plan family, meals and kitchen . The home is kept comfortable with a log fire and split system A/C.

The dual street frontage gives convenient front and side access and the real bonus is the additional 8m x 5m extra high garage with storage loft.

A fully fenced back yard, new concrete paving and side patio as well as a play gym included.

The right price in the right location.
