Unique Mountain Retreat in Rare Prime Location

Nestled on half an acre of private, fully fenced land and surrounded by reserve, this stunning cedar home offers complete seclusion with an established garden and direct access to the historic Charles Darwin Walk and The Falls. The main residence features 3 bedrooms, 1 bathroom and expansive living spaces with a Jetmaster open fireplace, soaring cathedral ceilings, floor-to-ceiling glass windows and sliding doors that open to a large, north-facing entertaining deck overlooking the garden and Blue Mountains National Park.

Separate guest accommodation, connected to the main house by a 20-metre boardwalk, includes its own bathroom, a slow combustion fireplace, and floor-to-ceiling windows and sliding doors leading to a private verandah, offering potential income.

The north-facing property is equipped with top-grade insulation, UV blinds, double glazing throughout, and a back-to-base security system. It also boasts an industrial sprinkler system with a generator and water tank. Despite its secluded setting, the home is conveniently close to shops, restaurants, schools, and transport.
