**\$450,000**

Set amongst immaculate gardens in the very heart of Mossman, this restored cottage oozes charm. Steeped with history, the two bedroom home has many original features such as timber floors & stumps, high ceilings, hardwood construction, stained glass windows & VJ panelled walls. The enclosed front verandah is an ideal place to enjoy the stunning Westerly mountain views while the 'Crimsafe' screening also provides excellent privacy. An additional dressing room accessed from the master bedroom via French doors could make an ideal nursery or office as well. The country-style timber kitchen & separate meals area lead outside to the entertaining area with woodstove, overlooking the pretty backyard. There are many established garden beds with flowers, herbs & topiary, plus several sheds & undercover work spaces plus an undercover carport. The whole property is fenced for security & privacy, with modern conveniences such as split-system air conditioners in both bedrooms & lounge room. A large solar array makes the property very energy efficient, and move-in ready. Inspections are a must to take it all in!
