CLASSY HOME

This Masonry Veneer home has a touch of class about it. It features 3 bedrooms, modern kitchen, upgraded bathroom, dining area, spacious lounge, back porch which is large enough for a 2nd living room and a nice wide entry from the front door. There is a large split system A/C in the lounge to keep you comfortable all year round.

Once you get outside you have a semi enclosed pergola, single garage with a workshop at the end of it, large concrete rain water tank with a pump and a solar power system. There is rear access into the back yard via a side lane.
