\$749,000

This fully fenced and level 603 sqm allotment has so much more to offer than first meets the eye. The property is situated only minutes from shops, medical, sports, restaurants and beaches and offers lovely glimpses of Schouten Island and Great Oyster Bay. Walk in the back entrance to a newly renovated home with the best appliances in the kitchen, a great space in the bathroom, 2 or 3 bedrooms with carpet, and front rooms with electric blinds. The wooden windows have all been redone, and open to let the fresh air flow, while the house has been completely rewired and replumbed and has a heatpump hotwater service. Outside features a great garden/potting shed and a second toilet is always handy. A lovely wide deck on the front of the house makes for a great sitting area, and at the back entrance a nice undercover area is ideal for the BBQ. To finish the house off, there is a remote control garage with power and a wide drive to park the larger vehicles.
