JEWEL IN THE CROWN

Originally built and owned by Anthony Fiteni of Antech Constructions, this exceptionally high quality and spacious home is truly a cut above the rest.

Thoughtful design features and finishes throughout are combined to take advantage of the properties unique position, only a stones throw from the Bay.

A large entry foyer with high ceilings leading upstairs to crafted polished wooden floors, a stunning gourmet kitchen with butlers pantry and bi folds opening out to spacious entertainment balconies, giving a sense of abundant open space and a superb living environment.

Attention to detail and quality is evident throughout, from the inlaid tiled entrance, carefully rounded wall corners, built in cabinetry, diagonally laid flooring and the use of expansive stone bench tops. Downstairs a separate office, dedicated media room and large rumpus-games room with it's own kitchenette, opening out to the private entertainment patio which includes a superb large mineral heated pool, continues the statement of this homes calibre.

With five bedrooms, including a large secluded master, three bathrooms and multiple living areas configured over two floors, the home lends itself to, large and extended family living.

Additionally there is three car garaging with an abundance of storage space and a large adjoining shed area. The properties street frontage has a secure rendered block fence, which includes an electric entrance gate with intercom and double electric driveway gates. Inside the gated entrance there is an extended fully concreted driveway, for ample secure, off street parking.
