## **Price Guide \$900,000**

Built for its tropical environment is this one of a kind, stunning 4 bedroom 2.5 bathroom with study, garage, pool and solar panels. A complete package with a tranquil entrance including secure intercom frontage, water feature and private entertainment area with outdoor kitchen. As soon as you walk in you will appreciate the design for airflow and natural light through the living area that onflows outside to the large inground pool with peace of mind privacy from all angles. To the left in the centered modern kitchen. Stone breakfast bar, loads of storage and large spaces for either side for optional dining and addition living space. Down a couple of stairs to office and additional toilet & 4th bedroom. At the other end of the home is a grand master bedroom suite with spacious ensuite, 2 remaining rooms and main bathroom finished with floor to ceiling tiled, free standing large bath tub and glass screen shower. Internal laundry leading to the side of the home and solar on the roof to complete the home. Built in 2017 Land size 701 No easements on title Solar panels installed in 2019 Want the new home with out the building stress? We have 1 not to miss!
