Space and style with views!

Set amongst one of Flinders leafy streets, 10 Fischer Road is a well presented torrens titled home with lots to offer.

Starting from the oversized double garage, with abundant additional under-house storage, we step up the wide polished timber staircase where the rest of the home sits on one level.

Your eye is immediately drawn to the tiled outdoor living space - set high in the treetops with views toward the rolling green hills of Dunmore, it's the perfect year round living and entertainment area! Back inside, the large living dining area is light and bright, with a focus on easy living. Low maintenance tile flooring flows throughout the large lounge dining space, and the kitchen includes generous storage, a 900mm upright combination oven, 40mm stone benchtops and breakfast bar.

Bedrooms two and three are well sized, with built in robes and close proximity to the family bathroom, complete with freestanding bathtub. A large linen press ensures there is a place for everything, and everything has its place.

The master suite is a story in itself. With sliding door access to the rear balcony, a quiet coffee overlooking the yard could be the new way you start your day, or end it with a cool beverage in the glow of sunset! Truly generous in size, the master suite has a his and hers walk in robe and full size ensuite. It is a must see!

Outside, there is a neat easy care courtyard with neat landscaping and lawns. Should you need more space, well, you are in the right place. Just 300m (approx.) from Rosemont Park, and with some of the areas best parks and cycleways connecting from here, you could be walking for one track on your headphones and feel a world away.

Location is everything, and 10 Fischer Road has it all within reach.

Your earliest inspection is encouraged.
