Parkings: 2

Type: House

Stephen Callaghan

\$1,185,000

After more than 25 years the owners of this much loved home have decided to sell, Only the second owners of the property in the quiet Cul De Sac location, close to Schools, Parks and Wesfeild Kotara Shopping Centre, you can see why they have both enjoyed living here. The first thing that I noticed about the home was the build quality, reportedly the builders own home it boasts spacious rooms with both a dining area and kitchen/family room with an easy flow from one to the next. The 4th bedroom is located downstairs with an En-Suit and would great a great teenagers/parents retreat, or as the current owner's usage a social area which leads onto an undercover outdoor entertainment and BBQ area. There is also loads of easily accessed under house storage and a workshop area. This home has space for the whole family and is ready for you to add your cosmetic touches to make it your own. If you are looking for a great home in a great location then put this property on your list, there's a lot to see so private inspections are encouraged.
