**\$675 per week**

This house is fantastic! It's a great design on an elevated block with an open-plan living space. Outside, there is an outdoor patio with a great view over the park. On a summer's night, you can also watch the storms roll in. Here, we will try to give you a guided walk through the house. As you walk into this family home, the first door on your right is your main bedroom, which has a mirror-door wardrobe and an ensuite. The main bedroom and the three other bedrooms are good sizes, with fans and flyscreens. The main bedroom features its own split-system air conditioner. As you walk out of the main bedroom, your garage is next door on the right, then just across the garage door. The laundry is in the garage with a back door that goes straight to the clothesline. You have a linen storage cupboard - not often included in modern houses! On your left after the garage, you will have your living area. This room is tiled, and being in the middle of the house, it is perfectly located. Across from the living room are the three bedrooms, the main bathroom, and a separate toilet. The kitchen has a big island bench, heaps of cupboard space, and a 1-meter-wide fridge. It also has a dishwasher, electric oven, and cooktop. In the garage, there is enough space for 2 cars. Property Features Include:- Master bedroom with walk-in robe, ensuite & airconditioner.- Ceiling fans in all bedrooms also in Family/Meals area- Airconditioner living space + main bedroom- Modern Kitchen plus dishwasher- Covered patio area- Fully fenced- Remote-controlled garage- Long-term Tenancy available
