Love A lot On Elliott

This charming 3-bedroom home is on the market, ready for you to nest or invest! With a range of fantastic features, including a brand-new kitchen, bathroom, tiled flooring, and carpeted bedrooms, it also boasts an approximate 8.25% ROI.

Each of the three spacious bedrooms comes with built-in wardrobes and split air conditioning units, ensuring comfort throughout the year. The tiled lounge is low-maintenance, while the open-plan kitchen and living area is ideal for entertaining and spending quality time with family. The kitchen offers ample storage space, and the separate dining area, complete with a cozy fireplace, keeps you warm during the winter months.

Outside, you'll find a large, fully fenced yard with lush lawns—perfect for children to play while you relax in the undercover entertainment area. The property also features a two-bay garage or workshop, along with an open carport for additional parking.
