Centrally located within Darwin's desirable northern suburbs, this attractive home creates a private, peaceful retreat with space for all the family, a short drive from Casuarina Square, Charles Darwin University and the spectacular Casuarina coastline.

Spanning two impressively generous levels, the home presents beautifully, creating numerous inviting spaces you will love to escape to, inside and out.

Starting upstairs, you are greeted by a bright open-plan with built-in study nook, which is neatly overlooked by an elegantly appointed kitchen. Boasting modern stainless-steel appliances and quality cabinetry, the kitchen appeals further with plentiful storage and a waterfall island.

Catching cooling breezes through banks of louvre windows, the upper level continues to impress with its natural flow out onto an incredible entertainer's balcony. Here you can easily imagine kicking back after a long day, enjoying the tropical surrounds and lovely pool outlook.

Completing this level are three generously proportioned bedrooms, each with built-in robe, serviced by a neat family bathroom with shower-over bath and separate WC.

Taking either the internal or external stairs, it's time to check out the superb ground level, where you find flexi space through the parents' retreat, large master with walk-in robe, and final bedroom with adjoining sitting room. These are serviced by a tastefully renovated bathroom, with double shower head plus there is a third WC beside the pool.

Both the sitting room and parents' retreat flow easily outside, where you find further covered alfresco space and a sparkling inground pool, framed by a grassy yard and established landscaping. Adding further appeal for those who love to tinker, there is a large workshop/shed, plus covered parking for two cars.
