\$185,000

This neat weather board home is ideal for a single person. The home features 1 large bedroom with a built in robe and access to the bathroom, the large is also a good size and has a split system and a wood heater, the kitchen had a electric oven, gas cook top and plenty of storage. The laundry has auto taps, trough and a separate 2nd toilet. Outside you'll find a single carport, rain water tank and electric hot water. The back yard is a blank canvas, it has plenty of room for a shed or to landscape it how ever you like.
