Entry level into Smithtown!

The bones are all there, it's now time for someone to roll up their sleeves and create your own little haven in the popular suburb of Smithtown!

With two downstairs bedrooms, a large living room, generous kitchen and quirky upstairs bedroom or study, this block is big!

With air conditioning, ceiling fans, an inbuilt gas heater, built in wardrobes and heaps of storage, this home is ready to move in and let your renovating inspiration fire up!

An updated kitchen and bathroom combine with a generous external laundry to maximise space and incite the motivation for some cosmetic tweaks to modernise and optimise the potential of this lovely little house.

You could create a fantastic family home here. Plenty of room for the kid's toys, a large shed for storage, carport, alfresco entertaining area, citrus and established trees and gardens, a concrete driveway and in a lovely quiet street, this home is close to the general store, pub, post office and with only a quick drive to Gladstone or Kempsey for shopping, this location is ideal!

Zoned for Smithtown school, close to the sporting fields and with that small town country feel, this is a lovely alternative to large town living without losing amenities.

Call now to secure an inspection!
