\$475,000

Once a thriving church, this beautiful property has been tastefully repurposed into a comfortable home with all of the modern features as well as its original charm. A fully open plan layout coupled with the warmth and beauty of pine floors, walls and ceilings creates a spacious yet cozy atmosphere, while tall ornate frosted glass windows allow an abundance of light to flow through from all directions, illuminating the inside. The charm and functionality of the property extends outdoors with a detached entertainment room making for a great BBQ area, games room or even a place for the kids to 'camp' in over the holidays. At the back of the property, a 2 bay shed with roller door access and attached front car port provides 4 car accommodation + workshop space, and with a newly built extension on the side, there is plenty of extra room for a studio or office - currently used for a day bed area. KEY FEATURES:- New kitchen - Enclosed BBQ / multipurpose area- Double bay shed with bonus side extension for office / studio - Generous 933m2 corner block To organise a private inspection contact Logan Steele on 07 4681 3311
