A tranquil terrace, transformed by a custom, extensive and luxurious renovation and rebuild. This beautifully appointed and centrally located terrace allows for a lifestyle to seamlessly balance the buzzing central Sydney living as an everyday getaway in a quiet leafy pocket. Renovations have enhanced an abundance of natural light through an array of skylights revealing a spacious layout with separate living and dining areas, featuring high ornate ceilings and original fixtures including a preserved fireplace and restored wooden flooring. A rebuild from a replacement of foundations has been carried out, including the addition of brand-new, quality kitchen and bathroom fittings. Extensive re-modelling was further carried out to prioritise the inclusion of a newly constructed second level toilet or ensuite for same level sleeping and amenity access. Bask in the winter sun as this rear north-facing, and spacious interiors spill out to a newly renovated, sunbathed courtyard with plenty of space to entertain. As a quiet yet centrally located terrace, find yourself within a few minutes of the bustling King Street, Newtown Station, Newtown Public School, Woolworths, Erskineville Station, shops and popular cafes. Within close proximity you can be at the local dog park off adjoining Angel Street or the expansive Sydney Park of Alexandria.
