\$4,800,000 - \$5,200,000

A cherished landmark of majestic heritage in one of Mount Eliza's most coveted locales, this Golden Mile residence brings the charm with its 110-year old (approx.) architecture and manicured garden setting. Offering impressive panoramas that stretch from the Dandenong Ranges across Port Phillip Bay to Melbourne's twinkling skyline and Geelong. Originally built by the Ramsey family as a holiday house, the once-in-a-generation offering rests across an impressive 4,148sqm (approx.) of elevated beachside land, set only a short walk from Canadian Bay Beach and Toorak College. As beautiful today as when it was first constructed, the weatherboard facade precedes a series of traditional spaces including separate lounge and dining rooms with open fireplaces and handcrafted adze timber beams, a north-facing sunroom, central kitchen with natural stone benchtops, three bedrooms, two bathrooms and a guest powder room. An in-ground solar heated swimming pool serves when beach days are over, while maintained gardens come complete with workshop/storage shed, studio and double garage with ample off-street parking. - A Golden Mile address, with expansive 180deg panoramas across Port Phillip Bay - Positioned a short walk from Toorak College and Canadian Bay Beach - Built approximately 110 years ago, by the Ramsey family as a holiday house - Traditional interiors are brought to life with high ceilings and hand adze timber beams - Two separate living zones, dedicated dining room, central kitchen - Stone benchtops, modern appliances and ample kitchen cabinetry - Master with floor-to-ceiling robes and bay aspects - A Jack-and-Jill bathroom separates the additional two bedrooms - Main bathroom with guest powder room - Gas ducted heating, split-system air conditioning, dual fireplaces - Solar-heated swimming pool, separate solar system, rear studio - Double garage with adjoining workshop/storage - Set across approx. 4,148sqm of land, with private street frontage - Perfectly comfortable as is, with renovation/rebuild potential
