This home would suit an astute investor. Currently vacant, but until recently, was rented at \$650 per week. Renovated a few of years ago this home is virtually new, inside and out. The lounge room is impressive with an open fireplace and polished timber floors. The modern kitchen, including dishwasher, would be the envy of many. Also features, solar electricity, ceiling fans and reverse cycle air conditioning. Each of the three carpeted bedrooms are very large (* 4.3 x 3.8; 4.3 x 3.7 and 4.3 x 3.6 *) including built in robes (one with a clever walk-in-robe). The beautifully designed bathroom has a freestanding luxurious bath, trendy rain shower head, double vanities, frosted timber louvre windows and separate toilet. The dining room leads out to a timber undercover b-b-q area, ideal for entertaining. Boasting a level fenced back yard this home is ideal for children with plenty of room for trampolines, play equipment and soccer balls. Downstairs is a modern laundry, second shower and toilet plus a large garage (* 6.7 x 5.9 *) with oodles of storage space and fully concreted. (The garage space could possibly accommodate two cars tandemly). Located within a close proximity to St. Vincent's Hospital, and Southern Cross University. This home was not affected by 2022 floods (•? Approximate measurements) Land size
