\$439,000

Entering the sheltered front decking the curiosity from anyone coming to this home is immediately awakened. The sunlight streaming onto the floorboards and in through the windows, positioned strategically provide great ambiances straight away. The reverse cycle split system keeps you warm in winter and cool in summer. The very large living zone blends in with the beautiful courtyard making it almost impossible to separate the inside from the outside. So much charm, quirk and thought that has formed this home to be a very unique offering and a new home for someone fortunate. The bedroom adjoins the courtyard and there is another area that could easily be turned into a second bedroom or whatever would be required. On the south side with a separate studio this is the ideal nest for someone appreciating design and great vibrations.
