Original 60s era home, prime beachside setting

Set just 300m from the beach and backing onto Porter Reserve, this 60's era home boasts one of the most desirable spots in Newport. Less than a five minute stroll into the village, its traditional layout may take you back to your own childhood with defined living/dining space, an immaculate retro kitchen, three beds and a single bathroom; it was built at a time when the kids played outside for hours and only came home when dinner was called. There's loads of options here: move straight in and enjoy as is, expand up or out to capture spectacular ocean views, or start over with a fresh new design (STCA). An increasingly rare find in this prestigious beachside pocket, we're pretty sure this gem won't last long.

- 60s era beach cottage with a single level layout + pristine interiors
- Combined living and dining space with an immaculate retro kitchen
- Three bedrooms, two with built-ins; separated w/c in the bathroom
- 560sqm parcel; property line borders Porter Reserve out the back
- Covered patio, ocean views from the terrace and front of the home
- Move in now, enjoy as is and make contemporary updates later
- Excellent potential to expand up/out for wide ocean views (STCA)
- Fabulous location; steps from the beach and the centre of Newport
