Original modern proportions of enduring appeal await behind the period inspired façade of this desirably situated dual level property. The classic external look creates a distinctive introduction to spaces that commence with a downstairs living area, zoned separately from the kitchen/dining domain where the original fit-out remain entirely capable of meeting current day needs. Two bedrooms, including a luxuriously large main bedroom with a full-width balcony define an upstairs level that's completed by a bathroom equipped with a separate bath and shower while a separate laundry and second toilet add to the downstairs appeal. Outdoor surroundings and a secure garage further enhance the chance to secure a home offering immediate success and significant upside in a premier pocket close to the beach and the bay, the Botanical Gardens, schools and shopping options.
