**\$660 per week**

A stunning home only a couple of streets back from the beach. Designed with a real indoor/outdoor feel with a large deck - perfect for those evening sunsets. Outdoor shower and luscious gardens make the property a total escape from the busy work week. You will also share the property with pet goldfish residing in the pond that will require daily feeding. The home features a spacious open-plan living area, complete with air conditioning throughout and an abundance of natural light. The kitchen is well-equipped, providing ample space and a continual flow. 2 bedrooms and a large office that can be utilised as a nursery or playroom if required. With a lockable garage, and large covered carport there is ample space for multiple vehicles at the property. Concrete safe internally. Generator connection to power box. This property has so much to offer and we anticipate it won't last long on the current rental market. Do not hesitate to get in contact.
