A very neat all round package here in this 2 bedroom clad residence located in popular Ferro Street.

A conventional floor plan with gas heating and split system A/C in the living room, 2 good sized bedrooms, modern laminated kitchen, tidy bathroom/laundry, study space at the rear and the bonus of a front utility room off the front porch.

There is rear land access to a single carport and a fully fenced yard.

A fantastic opportunity for the first home buyer, retiree or investor.
