This 1970's built, clad home comprises 2 separate living areas and is in a great entry-level price range for anyone looking to enter the property market as an owner occupier or an investor. The central kitchen is located between the living areas whilst the 3 bedrooms are at the front of the home. The shed, with concrete floor and power, would make a great workshop and the single carport with further off-street parking for 3 vehicles takes care of where to park.
