## **Fully Renovated Low-Maintenance Bliss**

Casting a memorable impression from start to finish with its chic reimagined style and practical, high-quality finishes, this entirely renovated 3-bedroom home delivers the perfect environment for an easy, low-maintenance lifestyle.

Subtle improvements to its facade dramatically improve its street appeal, hinting at the light-filled style that awaits inside. Open-plan living and dining spaces side an island kitchen designed with practicality in mind, elevated with Bosch and Westinghouse appliances for the perfect blend of form and function.

Sliding doors open to a spacious covered deck and a huge rear yard, undoubtedly inspiring the imagination with friends and family relaxing while the kids and dogs run freely. The three robed bedrooms are just as impressive, each zoned along a private hallway with a fully fitted laundry and a lavish central bathroom with floor to ceiling tiles, close by.

Complete with split-system air conditioning, premium privacy blinds, LED downlights, and a single carport with gated through access to a large storage shed, it's the picture of perfection you've been searching for, just moments from Somerville Primary, Somerville Secondary, village shopping, Central and Plaza shopping centres, the V/Line station, and easy Mornington Peninsula Freeway access.
