LEAFY LONG BEACH

This master built split level home with lofted ceilings creates a sense of space and light filled voids.

A bespoke design with the clever use of glass to bring the outside in, capitalizing on the bush surrounds and in a sought after location less than 450m to prestigious Long Beach.

A completely renovated kitchen, positioned in the heart of the home that begs family and friends to gather.

Entertain in the exceptionally private courtyard or enjoy a glass of red in front of the fire in the formal living area in winter.

The functional floorplan incorporates three spacious bedrooms, master with walk through robe and beautifully renovated ensuite.

Internal access to the double garage. This is beach side living at its very best.
