Bedrooms: 4

Bathrooms: 2

Parkings: 2

Type: House

Designer Touch at Smithfield...

Located in the Hub of Smithfield, is this beautifully refurbished home that could rival some of the popular interior designer shows that we all love watching.

The main home features:

3 bedrooms with built-ins, air-con and security screens

2 bathrooms - ensuite to main. The main ensuite is extra large and very stylish

Timber look floors to the main living areas

White plantation shutters to most windows completing that classic tropical look.

As for the kitchen, this remodel is stunning, there are so many fabulous unique features, you will have to see this in person to appreciate it fully. Everything at your finger tips, including a servery access to the patio.

Add to this, a long patio accessible from the master bedroom and also the main living. Separate laundry with additional toilet, then a paved forecourt area to the Studio. The studio is only a short project away from being a full granny flat as water and sewerage are already waiting. The studio has a kitchen, and lounge area and your 4th bedroom.

The garden is very well maintained, side gates for access, but the cherry on the top is there are only 2 neighbours as there is a park at the rear (with gated access) and you'll be walking to the shopping centre it's so close.

For the things you can't see, we have solar panels, solar hot water, insulation and much more to see upon inspection.

This home will be a delight to live in and the envy of all your friends and family.

Inspection by appointment
