Tranquil Country Living with Spacious Acreage in Winslow

Located in a growing and sought-after community, homes on small acreage with country charm don't last long.

Combining the classic white weatherboard and the current equine setup, the property lends itself perfectly for those with animals or simply wanting space around them.

Featuring excellent shedding facilities, tack room, horse boxes and 20m x 30m horse arena, the outdoor facilities have been meticulously cared for throughout.

Fully dog-fenced externally with private fenced garden area, the improvements throughout the property offer a functional and clean finish.

The weatherboard home is in immaculate condition with a wrap-around veranda accessible from every bedroom and the sundrenched west facing lounge and dining area.

Currently on two titles, the ability to create a building block and still retain an area of some 1.7 acres make the property an appealing development opportunity.

With so much to offer in Winslow's friendly community, let your interest be known today.
