\$165,000

What a Ripper, move straight in, all the work is done, and relax in this 3 x 1 fibro home with an iron roof. This recently renovated throughout home will catch your eye on inspection. Floating floorboards suit the manor along with a gas stove and gas hot water, a comfortable lounge with a wood fireplace for the coming months ahead. 1 large Bedroom and 2 smaller rooms for the family or grandkids when they visit. Ducted air-conditioning throughout for the summer months. There is a 6 x 3 workshop on a quarter acre block with plenty of room for expansion. There is also a large drive-through lean to (with potential for the creative minds) leading into the fully fence back yard with a rear entry. The yard and gardens are all easy maintenance, very tidy and well kept and along with the house are a credit to the Vendor. Wyalkatchem has a Hospital and Doctor along with a High School and other normal town amenities, including a Bowls club, Hotel and Tennis Club.
