\$719,000

With an elevated position and northerly aspect, this charming brick and tile home offers beautiful views and a comfortable interior. The covered front porch is a great place to relax, enjoy a meal and take in that sweeping vista to the north. Upon entering the home, you'll be greeted by a bright, welcoming living room, with polished hardwood floors adding to the timeless feel of the home. The timber kitchen offers gas cooking and a servery that opens to the dining area. There are three good-sized bedrooms, all with built-in storage, and the original family bathroom has a bathtub, shower, and separate toilet. There's also a second bathroom off the internal laundry, which opens out to the back patio and backyard. Under the home, you'll find two adjoining rooms under the house with external access, perfect for the home office or additional storage. A single garage sits next to the home. This home has great appeal for the family seeking a comfortable place to call home in a convenient location, close to schools, shops and services. To arrange your inspection, contact Rob Horder 0439 135 125.
