## Offers Over \$260,000

Presenting to the market, a low maintenance solid, double clay brick rendered home. Once home to a well-known local business owner this residence was the cream of the crop. With original concrete "Moro" statues engraved into the front porch – this property is the perfect benchmark to put your own stamp on and enjoy for many years to come. Central to the Johnstone River walkway which leads straight into the bustling township of Innisfail, everything really is at your fingertips. An updated kitchen was added recently, original Timber floors wait for the new owner's choice of finish, high ceilings and plenty of natural lights flows through the home. Low in price, high in personality and strength – come and see for yourself before this ol beauty is snapped up.
